  Sadhana Vidyalaya
  2018 - 2019
  Percentage: 87.84

HOBBIES

- Problem Solving
- Exploring new technologies

AREA OF INTEREST

- Web Development

ABOUT

I am a motivated and enthusiastic developer with a strong foundation in HTML, CSS, JavaScript, and React, as well as expertise in Node.js, Express, MongoDB. I specialize in creating dynamic, responsive web applications, blending technical skills with creative problem-solving. I'm a collaborative team player who is quick to adapt and contribute to a pleasant work atmosphere and Committed to continuous learning and delivering high-quality, scalable solutions, I am passionate about staying updated with industry trends.

PROJECT

- **Real time chat application**
  Built a real-time chat application using MERN stack and Socket.IO. Implemented user authentication, message sending, and real-time updates. Leveraged MongoDB for user and message storage. Demonstrated proficiency in building interactive applications with real-time communication capabilities.

- **Quora posts**
  Developed a backend system for managing Quora posts using Node.js, Express, and MongoDB. Implemented robust CRUD operations for post creation, retrieval, updating, and deletion.

- **Personal Portfolio**
  Designed and developed a personal portfolio website using React.js to showcase my projects and skills. Implemented a clean, responsive design for an optimal user experience across devices. Features include an interactive project gallery, a dynamic blog section and seamless navigation.
